**11.75x7.5x22
Sprint/T-Sack**

**Keep print within
dotted line area**

I am made from recycled materials.

I am made from at least 50% post-industrial waste.

I reduce road traffic.

**One truck can carry 2 million bags like me.
Seven trucks are needed to carry 1 million paper sacks.**

I'm cleaner.

**Producing me generates fewer pollutants than producing paper bags:
70% less air pollutant and only 2% of the water pollutants.**

I use less energy.

Making me involves a quarter of the energy used for a paper bag.

I help save trees.

**My material is created from plentiful natural gas rather than
ever more valuable trees or oil.**

I help in landfills.

I'm light and take much less space than a paper bag.
